

# ELISA UBERTI

INDICATIVE PRICE LIST

After many years in the fashion industry and driven by an overflowing passion for refined and timeless objects, Elisa Uberti naturally decided to go into craftsmanship.

Since 2018, she has been working with stoneware from her workshop based in Roubaix.

She works sculptural patterns with curved and comforting shapes, testifying to an ancestral manual gesture.

Her pieces form a particular microcosm, far from standardization... Her work, between art and design, is a constant search for volumes and emotional forms.

A subtle balance between the rigor of the technical constraints and the necessary freedom and spontaneity of the gesture.
